About This Content

This set includes:

- Unique Interceptor 'Cutter'
- 'Mercenary Contract' — 15 days of premium subscription

This ship is a completely independent project of the Tech faction. The perfect combination of modifications and bonuses makes this craft a very effective saboteur. The design of the ship exceeds almost all currently existing analogs. The power plant alone, according to scientists, is ahead of the current level of technology by several years.

General:

Premium license gives all pilots greater rewards for the battle. In addition, pilots get more credits vouchers for contracts! Pilots receiving premium licences from the command master new ships faster due to increased rates of synergy in battle. And when the battle ends, pilots with a premium license have two trophy search attempts — which means that the chance of getting new, unique equipment is higher!

When buying multiple DLC, bonuses to credits, synergy gain are stacked. Together, they provide an even greater bonus! At the same time, premium time also stacks as does the sum of Galactic Standards!

书店中的隐居者

店长

设计理念

店长给人的印象是：高瘦，神秘感，些许邋遢，不修边幅，文书工作者。所以在外形方面会用略显疲态的五官和凌乱的发型来体现角色的气质。

毛衣与衬衫的服装搭配比较呼应角色的表面“职业”，也能体现出他与时代背景稍显错位的古板感。
